

WO.V connect

Worldwide eSIM provider.

YOUR DATA, YOUR WAY.

WOW connect

WHO ARE WE

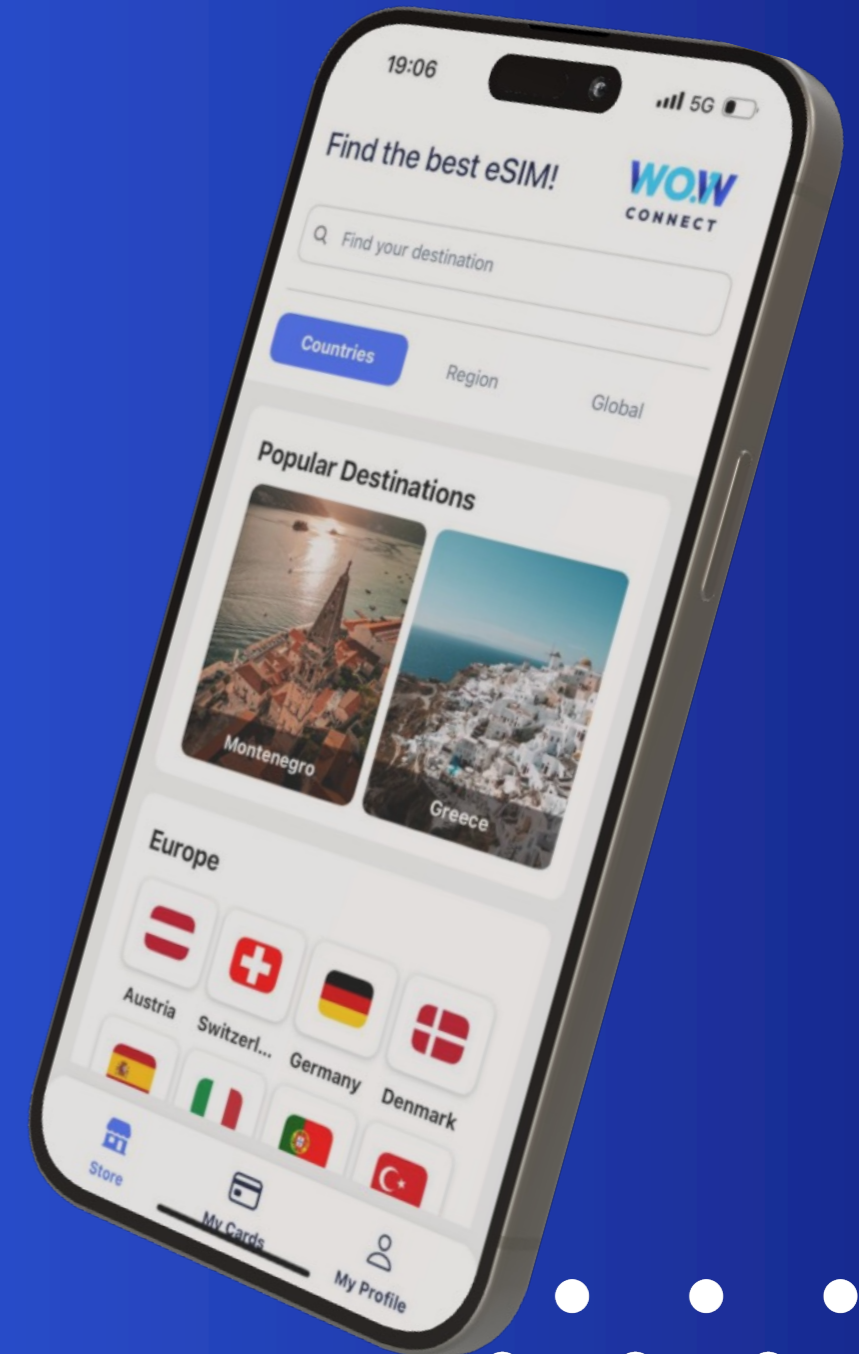

WOWconnect is a global eSIM provider that is here to ease the way you connect to the world. Our company is steadily growing into a leading eSIM provider, catering to a diverse range of customers worldwide.

OUR MISSION

We are on a mission to make connectivity seamless, efficient, and accessible for everyone. That's why we offer easy-to-use eSIM cards that eliminate the need for physical SIM cards, making it easier than ever to switch networks and manage your mobile data.

OUR VISION

We envision a world where connectivity is effortless and ubiquitous. As we move forward, we aim to expand our network, enhance our offerings, and remain at the forefront of the eSIM revolution.

WHAT IS ESIM?

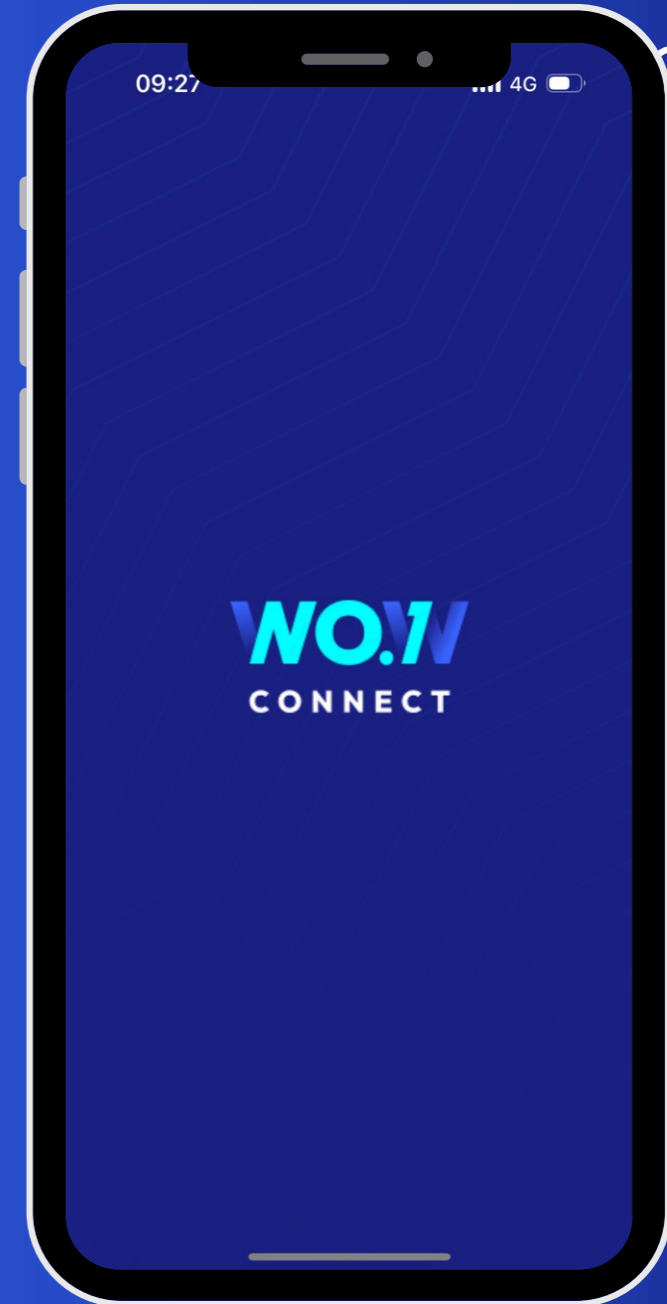

An eSIM (embedded SIM), is a built-in electronic SIM card inside a mobile device that enables customers to change network carriers without replacing a SIM card physically.

ESIM MARKET

The eSIM market size has grown rapidly in recent years. It will grow from \$9.69 billion in 2023 to \$11 billion in 2024 at a compound annual growth rate (CAGR) of 13.5%. Major trends in the forecast period include IoT proliferation, embedded SIMs in smart home devices, cross-industry collaboration, integration with blockchain technology, security and authentication focus. Rising demand for connected cars is anticipated to fuel eSIM market.

ESIM FORECASTS

GSMA Intelligence's baseline scenario predicts around **1 billion eSIM smartphone connections globally by the end of 2025**, growing to 6.9 billion by 2030. This would account for around three quarters of the total number of smartphone connections by 2030.
